Please use suitable personal protective equipment when using the Dry Diamond Drill Bits and power tools

DO NOT USE IF BROKEN.

Operate in rotary mode only. Do not use hammer action.

Cuts ceramic, porcelain, marble, granite & stone

1 Use arbor for drill use

2 Attach directly to angle grinder

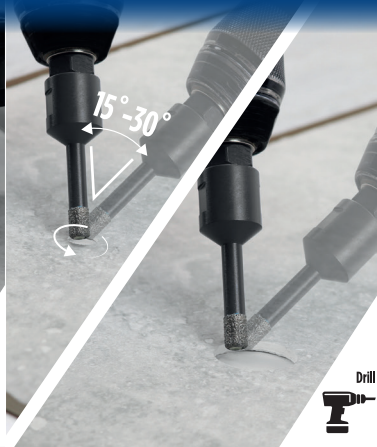

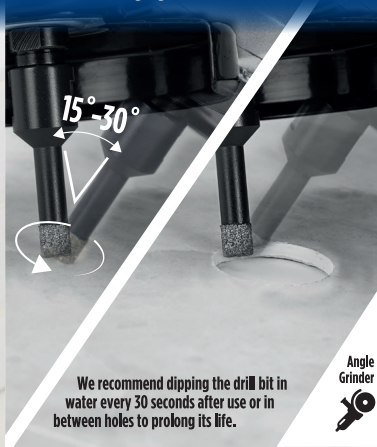

3 Mark the area you want to drill

4 We recommend using a Vitrex® drill bit guide to position and start the hole

5 Use at an angle of 15-30° for drilling and enlarging holes for both angle grinders and drills

6 Clean after use
