

# SAFESTCUT SEALANT REMOVER

## SSR001

The SAFESTCUT Sealant Remover is the ultimate tool for effortlessly removing sealant without risking damage to your surfaces. Equipped with a protective blade cover, allowing for safe storage when not in use. It's ergonomic design makes it perfect for accessing those hard-to-reach places, such as behind taps and around intricate fittings, where sealant tends to accumulate. No more struggling with difficult angles or risking damage to your fixtures - the SAFESTCUT makes these tasks straightforward and stress-free. Use on baths, showers, sink, windows etc.

### NARROW

The thin construction is ideal for behind taps

### REMOVES SEALANT

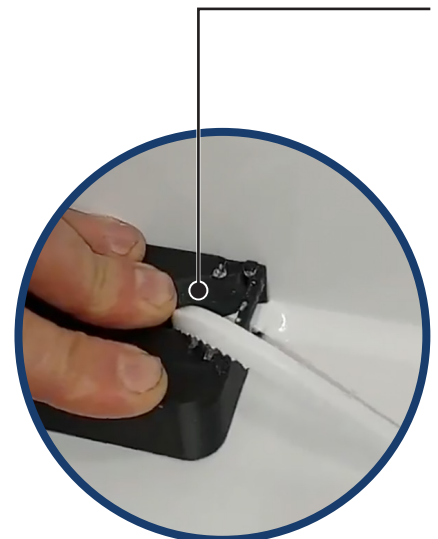

Easily removes old sealant from corners without damaging surfaces

### STAYS SHARP

Protective cover to keep the blade sharp and ensures safe storage

### EASY CLEANING

Opening in the unit makes it easy to clean up cut material
