

## DIAMOND SANDING BLOCKS

### SBLOCK60, SBLOCK120, SBLOCK200, SBLOCK400

Vitrex Diamond Sanding Blocks are the ultimate solution for precision and quality in every project. Engineered for excellence, these sanding blocks are perfect for tackling those hard-to-reach places and intricate corners with ease. Crafted from a flexible, lightweight foam material, they ensure comfortable use even during extended periods of work. To achieve optimal results, we recommend using these sanding blocks in combination with the roughest block and working towards the finer grits until the desired finish is achieved.

**COMPACT**  
Ideal for hard to reach places and corners

**LONG LASTING**  
Superior brazed diamond bonding keeps the sanding surface suitable for longer

**COMFORTABLE**  
Flexible, lightweight foam material for extended use

**WORKS ON:**  
Granite, Tile, Stone, Glass, Ceramic, Marble

**COARSE GRIT**  
Rough 60 Grit surface for removing burrs from tiles

**MEDIUM GRIT**  
Medium 120 Grit surface for shaping the edges of tiles

**FINE GRIT**  
Fine 200 Grit surface for smoothing tiles

**POLISHING GRIT**  
Ultra fine 400 Grit surface for polishing tiles
